

*Předmět: Popis problému loga ČSRU*

Citace z obdržného vysvětlení:

„Regretfully, the highlighted design element of “CZECH RUGBY” logo in attached file shows very exact resemblance to the word “Allah” as it is written in Arabic script(different fonts).

Allah in Arabic language means God in English. Allah is in fact common word among all languages spoken by the Muslim community of the world and is regarded as The MOST sacred name.

Muslims have utmost respect for the name of Allah in their religious believe. Nobody can think of printing the word Allah on ball. If done so, it will be taken as humiliation, disgraceful and degradation to the name of Allah and Muslim community can go to any extent in reaction to it e.g. (respective brand’s products boycott, strikes, violence protest, and legal prosecution against the supplier producing such ball).

Thus nobody can afford or even think of producing ball with this name on. So to avoid said scenario we cannot produce any ball with existing logo. Pls remove this logo from the ball or if possible just change the highlighted element of the logo or advise proceedings otherwise.

Regards,

Mujahid“
